Oil & Gas Consulting Cross-Functional Experience

A highly qualified petroleum professional with a Associate Degree of Applied Science in Petroleum Engineering and 32 years of experience in the oil and natural gas industry, with a proven ability to access and resolve problems to efficiently implement drilling, completion and production programs. Strengths in:

- Well Drilling: Deep, Directional, Horizontal and, Shallow.
- Completion and Work-over Programs, Artificial Lift and Well Performance Optimizing.
- Capital Budget Planning and Accountability. Operations and Maintenance Budget Planning and Accountability.
- Chief Inspector on Pipeline Installations and Renewals.
- Design, Construction, Operation and Maintenance of Pipeline Systems, Compressor Stations, Gas Measurement and Control Facilities.
- Regulatory Inspections and Mandated Projects.
- Completion of Drilling/Workover Well Control School and H₂S Safety Training Courses.
- Completed various DOT, PUC, and PSC Pipeline Safety Seminars.
- Successfully completed the requirements through the Advanced Course of the Appalachian Underground Corrosion Short Course.
- Ability to communicate in office or field environments.
- Supervision and Scheduling of employees.

PROFESSIONAL EXPERIENCE

Whitehair Operating LTD, Bolivar, OH

12/2004 – Present

Owner/Operator

Oil and gas development, operations, consulting and field supervision.

Projects have included directional and horizontal well drilling and completions of Devonian Shale, Coal Bed Methane, Selma Chalk, and Development Drilling; well work-over and recompletions; cleanouts and stimulations; wellhead and pipeline reconnections; well plugging and abandonment; water disposal facilities, pipelines and compressor facilities for coal bed methane production.

Black Gold Consulting

8/2004 – 12/2004

Drilling Consultant

Drilling and completion of coal bed methane wells for, Equitable Resources in there Nora Virginia field.

EOG Resources, Marietta, Ohio

6/2001 – 8/2004

Sand Surveys Inc. Cambridge, Ohio 3/1980 – 1/1978
Field Engineer

Operated open hole & cased hole wire-line services

EDUCATION

Associate Degree of Applied Science in Petroleum Engineering
MUSKINGUM TECHNICAL COLLEGE, ZANESVILLE, OHIO
Graduated – June 11, 1977

Open Hole Field Engineer Program
GEARHART – OWENS, FORT WORTH, TEXAS
Graduated – March 17, 1978

Modern Management Methods
LARRY RAGLAND & ASSOCIATES, FORT WORTH, TEXAS
Date of Completion – January 13, 1978

Instruction and Handling Training Course for Radiation Safety for Oil Well
Logging
GULF NUCLEAR INC. FORT WORTH, TEXAS
Date of Completion – March 8, 1978

Ajax Service School
COOPER INERGY SERVICES, CORRY, PENNSYLVANIA
Date of Completion – June 19, 1981

Safety Course in Hydrogen Sulfide
HALLIBURTON SERVICES, ZANESVILLE, OHIO
Date of Completion – June 10, 1988

Well Control School
PENN STATE, STATE COLLEGE, PENNSYLVANIA
Date of Completion – December 15, 1989

Wild Well Control School
MARIETTA, COLLEGE, OHIO
Date of Completion – April 26, 2007
