Completion Supervisor with Extensive Completion and Well Control

Business Skills: I have excellent office management and personnel management skills, I am computer literate with extensive HSE and well control background. Supervising completions globally.

Current Position: Completion Supervisor

Relevant Experience: Twenty five years oilfield experience in Africa, China, India Vietnam and the Rocky Mountains encompassing all manners of completions; drilling, work-over, on land, jack-ups, and semi-submersibles' I am willing to learn new technologies, to help advance better completion practices.

Completion Supervisor: **May 2010 to Present (Halliburton of Malaysia in Vietnam)**
Working as lower completion supervisor for Halliburton in Vietnam, my duties include working closely with company engineers to insure successful completion's and mentor young national engineers for **Korean National Oil Company**

Completion Supervisor: **May 2009 to May 2010 (Halliburton of India)**
As a completion supervisor for Halliburton my duties include service quality audit, assembly, and proper installation of completion tools, service tools, and expandable liner hangers, working closely with in town base national engineers to insure successful operations for **ONGC of India**.

Completion Supervisor: **September 2007 to May 2009 (Halliburton of China)**
Lower and upper completion supervisor for Halliburton on COPC Penli phase 2, my duties include multi zone open hole completions with spaced out wash pipe for acid stimulation, upper completion include subsurface safety valve, gas vent valve and successful instillation of control lines and working closely with onshore base team enforcing good communication. logistics' and safe working practices to insure successful operations for **ConocoPhillips of China**

Completion Supervisor: **May 2005 to may 2009 (Halliburton Global Team Houston)**
Completion supervisor supporting global facilities and domestic facilities.

Service Leader: **May 2004 to may 2005 (Halliburton Rocky Mountains Area)**
Operating in the Rocky Mountains service tools, well zone isolation with log correlation in shale plays areas.

Equipment Forman: **May 2003 to May 2004 (Operation Iraq Freedom Halliburton)**
Heavy Equipment Forman; Kuwait Iraq overseeing logistics and critical crane lifts attached to Kellogg Brown and Root for U. S. Army.

Ground Supervisor: **August 2000 to May 2003 (Halliburton Field Operations)**
In the Rocky Mountain Region insure the safety of operations for stimulations (fracturing).

Driller Derrick man Floor hand: **August 1976 to August 2000 Oilfield Gas and Oil Exploration**
Worked all aspects of oil and gas exploration to oil field construction, for various companies.

During my youth I had the opportunity to work in the Rocky Mountain Region, and have always worked in the oil and gas industry with: Drilling, Refining, Pipeline Construction, or just general oilfield construction. Due to the oil industry slow down in the 1980s it gave me a broad background and vast amount of oilfield knowledge.
